and Johnson. The two teams pounded each other's time on twenty minute halves.

The latter part of the game was exceedingly fast work and if this had been kept up throughout the whole game the score no doubt would have been very much greater. The game was of sufficient roughness to be a good practice game and will be of great benefit to the new men on the Varsity.

The results show that there is room for a decided improvement. Now let each one take a revived interest in the team as well as the meetings and we will surely uphold the standard of the Orange and Blue. W. C. C.

The Young Men's Christian Association.

The prospects of the Young Men's Christian Association are very bright and this year promises one of the best associations the college has ever produced. Great interest is shown by the students who attend. On account of sickness, our President and Vice-President are kept away from college, but our last year's President, Mr. Jackson, has taken the burden by request of the President, Mr. Snedecor, and will have things in good shape when our President returns. We had the pleasure last Sunday of hearing the Rev. Mr. Ogden, of Columbus, Miss., and Dr. Davis, of Opelika. Both men gave very interesting and instructive talks.

All students are cordially invited to attend our meetings every Sunday afternoon in the Association Hall. We have efficient officers this year and some who will do the college good as well as the Association.

The officers for session 1901-1902 are: President, Mr. G. W. Snedecor; Vice-President, Mr. J. O. Webb; Corresponding Secretary, —, Recording Secretary, Mr. F. C. Atkinson; Treasurer, Mr. W. B. Hamilton; Librarian, Mr. W. W. Rutland.

Wirt Society.

The Society has been having regular meetings since the opening of college.

The attendance has been good and the members are taking an unusual amount of interest in the meetings. Boys, keep this up and we will make this one of the best years in the history of the Society.

Several new members have been received into this Society and we hope there are others who will come out and join us.

The Society has selected Hamilton and Rutland for the Thanksgiving speakers.

The Society will have a mort court at its regular meeting on the 26th. This will be interesting to all. Come out and enjoy it.

The Society elected the following officers Saturday night:

Hamilton, President; Rutland, Vice-President; Searcy, Secretary; Billingsley, Treasurer; Lindrose, Critic.

FOOTBALL

Prospects Very Encouraging.

Although early in the season, and at a time before any really big games have been played, it is very difficult to predict just what our chances for a winning team will be, but we know that from the game that Auburn put up against Montgomery last week, that she still plays the genuine Auburn football and we have every right to expect great things of our team. 'Tis true the coach and team as a whole are laboring under a great disadvantage, and that is the lack of old experienced players who are on to all the tricks and know the game like an old experienced business man knows his line of business, but we should congratulate ourselves on the fact that the entire Varsity squad is composed of hard, conscientious players, who are striving to gain that knowledge of football in which they are deficient and I am satisfied that by the time the date of our game with North Carolina rolls around, that we will have a team that all will be proud of, and none will hesitate to cheer them to the echo.

The Varsity has been very lucky this season in having a good "scrub" to play against. As you all know, it is the "scrub" that makes the Varsity and we must not let the interest that has been so manifest grow weak, but on the other hand the boys must come out every day and give the Varsity a good practice. So far, the "scrub" has been playing an excellent game and good men for next year's Varsity are being developed.

Another thing that is of utmost importance is the financial problem. The expense of running a football team is no small matter if one person has to pay the bill, but if all come up with their subscriptions the expense on each one will be very little and all go on smoothly. So, boys, come up with your subscriptions and don't let the manager have to beg you for it. As you know the position of manager is a very arduous one and exceedingly trying; a whole lot of work and no pay; so let your criticisms, if you have any, be mild, because he is doing his best to run matters the best he can for the welfare of all parties and is going to give you as good a schedule as he can arrange.

Let us all join together and work for the success of our team. Learn the yells and cheer the boys from the side lines every afternoon; compliment the good plays; and in every way encourage and buoy up the spirits of all concerned.

FRATERNITIES.

Alpha Tau Omega, Kappa Alpha, Phi Delta Theta, Sigma Alpha Epsilon, Sigma Nu, Pi Kappa Alpha and Kappa Sigma.

The enrollment at the end of the first week was 340, the largest in the history of the college. "Auburn's" success is an assured thing. She is admitted by all to be one of the best colleges in the South. Her graduates are admitted to advanced standing in the best of colleges up North, such as Harvard, Columbia and Cornell.

The following is an extract from the Birmingham Age-Herald of September 26th: "The present attendance of students at the Alabama Polytechnic Institute, or as it is popularly called, 'Auburn,' numbered 340 for the first week—is believed to be the largest in the history of Alabama colleges. There are 130 new students, and this number is certain to be increased, Jefferson county, with 40, has but four less than the combined attendance from Montgomery, Mobile and Dallas. Auburn is admittedly one of the very best of Southern colleges and it deserves its great success."

The game with Tulane has been called off. Negotiations are now pending with the Louisiana State University and it is to be hoped that a game can be arranged, as it will give us a game once a week until Thanksgiving.

Let all the boys, especially the new men, learn the college yell; "rooting" counts for a great deal in winning the games.

The football schedule, as arranged by Manager Bragg, is the best Auburn has ever had. It includes games with Vanderbilt, Nashville, North Carolina and Georgia. The Vanderbilt team is composed almost entirely of old men, and we can look for a hard fought game when they clash with us in Montgomery. Nashville, it is understood, returned a majority of their last year's team, and those who saw them play last year know that they will give us a good game. It will be useless to say anything in regard to the North Carolina team, for it is generally known that they turn out a heavy, fast team each season. Georgia's team is stronger and faster than last year's. They are taxing themselves to the utmost to take the Thanksgiving game from us in Atlanta.

The football season started up North by Harvard, Yale and Pennsylvania, three of the "big four" allowing scores to be made against them by Bates, Tufts, Pennsylvania State College respectively, while Princeton has piled up heavy scores against her opponent and has allowed not a score against her.

Let no one be discouraged as to our prospects for a successful football team, by the game last Saturday. Remember that the Montgomery team had Shaffer and Patterson, two of our best old players, and also had fine players in Lum, Tyson and Elmore. The game showed that we were very good indeed on the defensive, and not bad at all on the offensive. It showed the weak points, and Coach Williams, assisted by Shaffer, will put in good time this week remedying those weak points and putting us in trim shape for Nashville in Birmingham next Saturday.

It is already rumored that the material here for a baseball team is excellent. Let Auburn this year show interest in all forms of athletics and let her show her appreciation of the high grade of sports maintained here by liberally coming up financially.

The Orange and Black does not give a very encouraging outlook for football at Athens, but luckily there are other sources of information than the Orange and Black.

The game with Tulane has been called off. Negotiations are now pending with the Louisiana State University and it is to be hoped that a game can be arranged, as it will give us a game once a week until Thanksgiving.

Let all the boys, especially the new men, learn the college yell; "rooting" counts for a great deal in winning the games.

All the old men should subscribe for the Orange and Blue. This will encourage the new men to subscribe. The Orange and Blue is published by the students and depends on the students for its support.

A new chair has been established; the physics as taught here has been hitherto more or less connected with the department of electrical engineering, but has now been made a separate and distinct department.

One of the most essential things for success in any department of college athletics is money. So let everybody come up liberally. If this is done there need be no fear but that we will have as successful a year in football and baseball as any in our past history.

THE NASHVILLE-AUBURN

And the Coming Vanderbilt-Auburn Game.

Auburn and the University of Nashville clashed at Birmingham with the result that Auburn was defeated by the score of 23 to 5. This should by no means be discouraging to the students; it should not let our enthusiasm be dampened at all. Our team did the best it could under the circumstances.

Nashville was very slow and this proved a great hamper to our players, who are used to lightning playing. Their weight was an advantage that was very hard to overcome. The Nashville team kept us from playing fast ball by laying out. This was a source of great annoyance to our men and had the effect of making us seem to play slow ball.

Next Saturday we will meet in Montgomery the University of Vanderbilt and the prospects are now that we have a very good fighting chance. Our team will then meet men of nearer their own size and men that play faster ball than Nashville. There is no question but what Vanderbilt is playing fast, first-class ball and should we defeat them, we will cast off to some degree the odium caused by our defeat in Birmingham.

Our team is now doing hard work; the playing against the scrubs has been characterized by more energy, the plays are rolled off faster and more actual work is done, as is shown by the fact that on evening practices the scrubs are not able to score and that the Varsity makes several more touchdowns than hitherto.

Let there from this time on be more college yell, they have been very scarce this year indeed. There is no better way for evincing college spirit than in this manner. Often it is the case that yelling has resulted in winning victories, but should it not do that it affords a stimulant to the men playing and has the effect of keeping up their courage at critical points of the game.

Fit and wear, comfort and service—that's the story of Monarch Pats, the patent leather shoes that are different.

Long-lived shoes, because there's life in the leather; comfortable shoes, because they're made right. Monarch Pats have cornered foot comfort. Wear them and you'll believe it. Monarch Pats head a family of great shoes in every other.

EXCHANGE COLUMN.

This being the first issue of the Orange and Blue for this session, the papers that have been so kind as to have placed us on their exchange lists will see why they have not received Orange and Blue. We will give a full list of the exchanges in our next issue.

English-American Meet.

The brawn and muscle of the American Collegians proved to be too much for the Oxford-Cambridge team at Berkeley Oval last Wednesday, the Americans winning six out of nine events on the programme. One point was counted for each first place so that Harvard and Yale defeated their English opponents by a score of 6 to 3.

Between the American universities the honors were equally divided, Harvard and Yale each winning three events. Cambridge captured all the points falling to the English team, Oxford not being able to score a single first.

The score in the track events was as follows: 120 yards hurdle won by Converse, Harvard—time 15 3/5 seconds; 100 yards dash, won by Har- grove, Yale—time 10 1/2 seconds. Half mile, won by Workman, Cambridge—time 1 minute and 55 3/5 seconds. Quarter mile, won by Rust, Harvard—time 50 seconds. One mile won by Cockshott, Cambridge. Two miles, won by Workman, Cambridge. In the field events the Americans had it all their own way.

Sixteen-pound hammer, won by Boal, Harvard—distance 136 feet 8 inches. Running high jump, won by Spraker, Yale, at 6 feet 1 1/2 inches. Running broad jump, won by Spraker, Yale—distance 22 feet 4 inches.

The weather conditions were perfect and the meet was a complete success.

Late Ruling of Dr. Dudley, President of the S. I. A. A.

"Any student who has been a member of a summer baseball team, shall not be eligible to play on any team in the S. I. A. A., until he has furnished to the president of the S. I. A. A., an affidavit or affidavits sworn to by himself and by the manager or managers of the team or teams of which he has been a member, clearly setting forth that no money, nor consideration of any kind, (in accordance with article IX, section I of the constitution of the S. I. A. A.) except actual expenses, has been received by the said player for his services nor paid by said manager to said player."

From the material gathered Harvard's prospects are considered good this year. Few of last year's men are back at college, but the present material seems promising. Of the twenty-one men who played in the Yale and Pennsylvania games last year twelve will return to college this season.—Ex.

The annual rules of the sophomores at Columbia for the regulation of the freshmen have been posted. The freshman must forswear, among other things, giddy socks, turned up trousers, golf apparel, pipes, and love making.—Ex.

Yale's football team will apparently have a rush line as heavy this year as last season, possibly some heavier. As the men have played for several days the centre trio and tackles average more than two hundred pounds.—Ex.

My dear Joseph:

Your letter asking for an augmentation of your pecuniary stipend has been received, together with a communication from your preceptor, relative to your demeanor at the college. Permit me to say, that should I ever again peruse an epistle

similar to either of these, you may confidently anticipate, on return to my domicile, an excavation of the cuticle which will adhere to your memory for a term of years.

Your affectionate
FATHER.

Just for Fun.

Dr. Southall—On the planet Jupiter the pull of gravity is about six times greater than it is on earth.

L. E. Thornton—Well, Prof., you could plant corn there without digging holes.

Flug Houston to Prof. of Physics—Prof., we didn't have time to go into details on that quiz.

Prof. South—I worked the entire examination in ten minutes.

Flug—Prof., you see you are smarter in ten minutes than we are in an hour.

Miss M. to Washington—Did you get on your knees to her?

Washington—No, she got on them.

Tell me, dearest, what is love?
"Tis a lightning from above;
"Tis an arrow, 'tis a fire,
'Tis a boy they call Desire:
'Tis a grave,
Gapes to have
Those poor fools that long to prove."

Tell me more, are women true?
"Yes, some are, and some as you,
Some are willing, some are strange;
Since you men first thought to change,

And till truth be in both,
All shall love to love anew."

Tell me more yet, can they grieve?
"Yes, and sicken, sore, but live,
And be wise and delay,
When you men are so wise as they:
Then I see,
Faith will be,
Never till they both believe."

Fix him tenderly,
Bore him with care,
Fitted so slenderly,
Tutor, beware.
See his lips quivering,
See his limbs shivering,
While the sweat constantly
Falls on his clothing:
Question him patiently,
Loving, not loathing.
Frown not so scornfully,
Speak to him mournfully,
Not so reprovingly.
Mark that surprise of his,
See those sad eyes of his
Glancing so lovingly:
Ho! that last slip of his
Makes him look tearfully,
See that poor lip of his,
Bitten so fearfully.
Alas for the rarity
Of tutoric charity
Under the sun.
O! it is pitiful,
Painfully pitiful;
Friend he has none.
